Skill Enhancement Programme Report

Session 2021-22

The Skill Enhancement Program aims to empower individuals by offering a comprehensive range of capacity-building activities. The program focuses on various areas, including computer education, seminars, research at the master's level, and skill development in sports and life skills activities. This report highlights the key components and outcomes of the program, emphasizing the positive impact it has had on participants' skill development and overall growth. The Skill Enhancement Program has yielded several positive outcomes for participants have acquired essential computer skills, enabling them to use technology effectively in various personal and professional settings. Engaging in research at the master's level has deepened participants' understanding of their chosen fields and equipped them with critical thinking and analytical skills. Seminars and life skill activities have contributed to the development of participants' communication, leadership, and problem-solving abilities, making them well-rounded individuals. Participation in sports activities has enhanced participants' physical fitness, coordination, teamwork, and strategic thinking abilities.

The Skill Enhancement Program has successfully empowered participants by providing them with a range of capacity-building activities. Through computer education, seminars, research at the master's level, and skill development in sports and life skills activities, participants have acquired valuable skills and knowledge that will benefit them personally and professionally. The program has contributed to their overall growth and positioned them for success in an increasingly competitive world.

The inclusive participation of faculties of education and physical education was instrumental in making the program successful. Their collaborative efforts ensured the integration of academic and physical elements, provided a comprehensive support system, and fostered a positive learning environment. The program's success can be attributed to the joint contributions of both faculties, ultimately benefiting the participants and their overall development.

All the faculties of education and physical education have made a commendable contribution.

Value Added Programme Report

Session 2021-22

Our college organized value added courses with the collaboration with Edify, Digiturg LLP, ESAF, Tckack Consulting LLC, Spiccorb, UTransformation. The value added courses aimed at enhancing the skill and knowledge of our students. These courses were designed to provide practical insight and develop competencies in various areas, including effective presentation making, thesis writing, research methodology in social science, basic concept of ICT tools, video editing, synopsis writing etc.

The value-added courses organized by our college have successfully provided students with a range of valuable skills and knowledge in diverse areas. These courses have equipped them with essential competencies such as effective presentation making, thesis writing, research methodology, ITC tools, video editing, and synopsis writing. The outcomes of these courses will undoubtedly contribute to the overall academic and professional growth of our students. We commend the efforts of the college in organizing these courses and look forward to more such initiatives in the future.

The inclusive participation of faculties of education and physical education was instrumental in making the program successful. Their collaborative efforts ensured the integration of academic and physical elements, provided a comprehensive support system, and fostered a positive learning environment. The program's success can be attributed to the joint contributions of both faculties, ultimately benefiting the participants and their overall development.

All the faculties of education and physical education have made a commendable contribution.

Outreach Activity Programme Report

Session 2021-22

This report provides an overview of the outreach activities organized by our college. These activities aim to foster community engagement, social responsibility, and the development of practical skills among our students. Throughout the reporting period, our college successfully organized outreach activities. This report will outline the objectives, types of activities, and the impact they had on both the participants and the community. Outreach activities organized by our college have had a profound impact on both the participants and the community. Promote social responsibility and community engagement among students.

Provide practical application of knowledge and skills learned in the classroom, Enhance leadership, teamwork, and communication skills. Contribute to the welfare and development of the local community. Foster a sense of empathy and compassion towards marginalized groups. Encourage cultural exchange and awareness. The outreach activities organized by our college covered a wide range of areas and initiatives. Some of the common types of Students actively participated in various community service projects such as cleaning drives, tree planting, organizing health camps, and conducting awareness campaigns on social issues. Students organized tutoring sessions, mentoring programs, and workshops to support underprivileged students and promote educational opportunities.

Skill Development: Workshops and training programs were conducted to develop vocational skills among disadvantaged groups, such as computer literacy, handicraft making, and entrepreneurship (such as Gothan, teaching techniques in sports ICT tools making, Preparation of teaching aid).

These activities have fostered social responsibility, practical skill development, and community engagement among our students. The initiatives have contributed to the well-being and development of the local community, addressing various social issues and promoting sustainable practices. We commend the efforts of our college in organizing these outreach activities and encourage continued engagement in such initiatives to create a positive and lasting impact.

The inclusive participation of faculties of education and physical education was instrumental in making the program successful. Their collaborative efforts ensured the integration of academic and physical elements, provided a comprehensive support system, and fostered a positive learning environment. The program's success can be attributed to the joint contributions of both faculties, ultimately benefiting the participants and their overall development.

All the faculties of education and physical education have made a commendable contribution.

Workshop Report

Session 2021-22

The following report outlines the proceedings and outcomes of the research workshop organized at Mansa College of Education, Bhilai. The workshop aimed to promote research skills and foster a culture of collaborative learning among students and faculty members. The event was attended all faculty in education and physical education department, including students, professors, and researchers from various disciplines. To enhance participants' understanding of research methodologies, techniques, and best practices to provide a platform for students and faculty members to share their research ideas and on-going projects to facilitate networking and collaboration among participants to encourage interdisciplinary research initiatives to inspire participants to pursue research as an integral part of their academic journey. The workshop commenced with an inaugural ceremony featuring an address by the college principal, emphasizing the significance of research in higher education and its impact on society. A keynote speech was delivered by a renowned expert in the field, highlighting the importance of collaborative research and sharing valuable insights. The workshop included sessions focused on research methodologies, including quantitative and qualitative approaches, data collection techniques, experimental design, and literature review. Experienced faculty members conducted these sessions, providing participants with a comprehensive understanding of various research methods. To foster collaboration and knowledge sharing, a research showcase was organized where students and faculty members presented their on-going research projects. This session encouraged dialogue, constructive feedback, and potential collaboration among participants with similar research interests. A series of panel discussions were held, covering interdisciplinary research, ethical considerations in research, and effective academic writing. Eminent researchers and faculty members served as panelists, sharing their experiences and engaging in insightful discussions with the audience. The workshop featured interactive sessions and workshops on data analysis using statistical software, academic writing and publishing, and research proposal development. These hands-on activities provided participants with practical skills and tools necessary for successful research endeavours. Throughout the workshop, participants had ample opportunities for informal networking during tea breaks, lunches, and a dedicated networking session. These interactions facilitated the formation of new connections, collaborations, and the exchange of ideas among participants.

The research workshop organized at Mansa College of Education, Kurud, Bhilai successfully achieved its objectives of promoting research skills, fostering collaboration, and inspiring participants to engage in research activities. The event provided a valuable platform for knowledge exchange, interdisciplinary dialogue, and networking. Moving forward, it is recommended that such workshops be organized regularly to sustain and strengthen the research culture within the college, nurturing a generation of academically accomplished individuals.

All the faculties of education and physical education have made a commendable contribution.

Co-Curricular Activity Report

Session 2021-22

Co-curricular activities play a vital role in the overall development of students, complementing their academic education. These activities encompass a wide range of experiences that go beyond the traditional classroom setting and provide students with opportunities to enhance their educational and physical skills. This report explores the significance of co-curricular activities in both educational and physical education domains. Co-curricular activities offer students a practical and hands-on approach to learning. They provide a platform for students to apply the knowledge gained in the classroom to real-life situations. By participating in activities such as debates, quizzes, and science projects, students develop critical thinking, problem-solving, and teamwork skills.

Co-curricular activities in educational and physical education domains are integral to a student's overall development. They provide opportunities for practical application, holistic growth, and physical fitness. By incorporating co-curricular activities effectively, educational institutions can enhance the learning experience and promote the well-being of their students. Encouraging participation, ensuring inclusivity, and fostering parental involvement are key factors in realizing the full potential of co-curricular activities in education.

The inclusive participation of faculties of education and physical education was instrumental in making the program successful. Their collaborative efforts ensured the integration of academic and physical elements, provided a comprehensive support system, and fostered a positive learning environment. The program's success can be attributed to the joint contributions of both faculties, ultimately benefiting the participants and their overall development.

All the faculties of education and physical education have made a commendable contribution.

Best Practice

"Ek Pustak Sajhaa Karen" | GIVING – "Share a BOOK"

The Context

As part of the curriculum as Practice Teaching (PT's) in the Teachers Education programme during the B. Ed Semesters, the PT's has to visit various schools and part their teaching practice in the respective schools. During the course of such Practice Teaching it has come in the observation of the student's of Mansa College of Education in both rural and semi-urban regions, that though the students of the respective schools are being provided by the government of State for their reading which are part of their curriculum but it has been learned that that the same is not sufficient for the students of the school as the student he or she much get more related books for his/her preparations and information to be in sync with outside world. The students of the school are facing double edge sword were by one side they have no access of the proper library where they can sit and read and on the other side their parents are not financially sound to meet those requirements of purchasing books for their wards from the outside. Hence, keeping in mind the problems that the students were facing and based on the feedback by various schools from the rural outskirts, Students Teachers and Practice Teachers and the non teaching staff of Mansa College Education an initiative has been started and promoted in the name of "Ek Pustak Sajhaa Karen" abhiyaan | GIVING – "Share a BOOK" under the aegis of Mansa College of Education. And with the kind participation and support we could able to rope in many books related to board of education and other related areas which are of the interest of the students and can certainly act as a catalyst for the student's overall development and intellectual acumen in various domains.

At the outset to mark the LIBRARY DAY on 12th August 2021, we at Mansa College of Education have started this wonderful and noble initiative in the name of "Ek Pustak Sajhaa Karen" abhiyaan | GIVING – "Share a BOOK".

The Objectives of the Practice

- To induce the interest of the students in their study.
- Encouraging students to acquire knowledge related to subjects other than the curriculum.
- To develop intelligence acumen among the students.
- To induce moral development in students.

The Practice

- Based on their convenience student teacher and practice teacher use to contribute a book every year in the College Library as part of collection.
- Both and Teaching and Non-Teaching staff of Mansa College of Education also participate and contribute the books every year in the college Library as part of collection for this very initiative.
- All the collected books from various sources are consolidated and directed to the respective schools as part of the initiative to enhance the schools pool of books by our respective Practice Teacher and Students Teacher

The criteria set by the college for this initiative –

“Ek Pustak Sajhaa Karen” abhiyaan | GIVING – “Share a BOOK”

To receive books in the form of donation by the students of the Mansa College of Education, all teaching and non-teaching staff. All donated books must be of the student's interest and in sync with the education they are attaining in their respective schools. Area of interest needs to be considered in all respect. All the books which are donated should facilitate to the students between class 5th and class 10th. The books must match the aforementioned class criteria. Ensure regular donation of books to shortlisted schools on yearly basis by creating pool of books.

Best Practice

सर्वश्रेष्ठ अभ्यास

1. Practice – SHODHMITRA (शोधमित्र)

2. The Context:

As part of the regular practice in University, Students of M. Ed (Master of Education) have to submit their Research Proposal as part of their curriculum during their M. Ed. As part of their practical work, a short research proposal work is done under the guidance of the director on any one academic problem.

Leading from the front, every year at Mansa College of Education students from M. Ed Syllabus follows the suit and as part of their practical work, a short research proposal work is done under the guidance of the director on any one of the academic problems. For this task the student works really hard. In order to highlight their hard work and to develop interest in their research work, the library committee alongwith IQAC committee have decided to honour and felicitate them as SHODHMITRA (शोधमित्र) to acknowledge their hard work during mandatory short research proposal. Officially, it has been started on 11th November 2020 to mark the National Education Day.

3. The Objective of the Practice (उद्देश्य):

- Enlightening the interest of students towards research and development work
- Discovery and highlighting of new facts in the context of the academic problems
- Refinement of authenticity in research work
- Intellectual development of students in various domain pertains to the subject matter
- Bringing quality to education

4. The Practice – (अभ्यास)

- Researchers are made aware of the ShodhMitra honour given by the college
- The criteria set for ShodhMitra honour are determined by the committee
